THE AIMS SCHOOL AND COLLEGE

AIMS REACHES FOR THE STARS: WORLD SPACE WEEK CELEBRATION

AIMS School and College celebrated World Space Week with unparalleled enthusiasm and fervor. For World Space Week, our institution transformed into a celestial wonderland, captivating students and teachers alike. The school was beautifully decorated with colorful planets, twinkling stars, and space-themed ornaments, creating an immersive experience for all.

A range of engaging activities were organized to foster creativity, teamwork, and scientific exploration. Students from Pre-School to Primary School demonstrated exceptional energy and participation, making posters and models related to space. These creative projects showcased their understanding of the cosmos and its wonders. Their vibrant posters and intricate models reflected their boundless imagination and curiosity about space.

World Space Week at AIMS aimed to inspire the next generation of space explorers, scientists, and thinkers. By encouraging creativity, critical thinking, and teamwork, we nurtured a deeper appreciation for the vastness and mysteries of space.

AIMS STUDENTS SHINE AT WORLD SPACE WEEK CELEBRATION

AIMS School and College proudly participated in the three-day World Space Week competition, hosted by the Islamabad Institute of Science and Technology. Held from 8 October, this three-day event brought together talented students from 46 schools across Islamabad, Rawalpindi, and other cities.

Their outstanding efforts earned them well-deserved certificates of recognition, a testament to their hard work and dedication.

The competition provided an ideal platform for our students to interact with peers from diverse backgrounds, exchange ideas, and learn from experts in the field.

Our students showcased their exceptional skills and creativity in various modules including:

Pakistan's space assets
Satellite missions
Pictorial story writing
Space fiction
Space poetry recitation
Painting
Color in space
Space spellathon

APPRECIATION

Madam Shaheen Jamal, representing AIMS School & College as a space ambassador, received a shield and certificate from Mr. Saqib Nasir, Director of the Pakistan Science Foundation. This honor recognizes AIMS' commitment to fostering scientific excellence and innovation.

THE DIABETES CENTER CONDUCTS INFORMATIVE SESSION AT AIMS

Recently, a team of medical experts from The Diabetes Center visited the premises of AIMS to conduct an enlightening session on diabetes awareness. The session, held on 31st October, brought together students and teachers from AIMS, who actively participated in the interactive session.

Led by Mr. Asif Shehzad, Project Coordinator, along with Dr. Shafaq and Dr. Ambreen, the team from The Diabetes Center delivered a comprehensive presentation on the types of diabetes, its symptoms, and treatment options. The doctors provided valuable insights into the importance of maintaining a healthy and balanced lifestyle, emphasizing the significance of early detection and prevention.

The session's second half featured an engaging interactive segment, conducted by Dr. Ambreen Abid, Clinical Psychologist from The Diabetes Center. The doctor skillfully engaged the students, posing thought-provoking questions that encouraged active participation and sparked interesting discussions. The students demonstrated remarkable enthusiasm and energy throughout the session, impressing the visiting doctors.

The hour-long session concluded with a hearty vote of thanks from the students and teachers to The

Diabetes Center's team for sharing their expertise. The CEO, Principal, and staff of AIMS were also acknowledged for facilitating this valuable learning opportunity by the visiting team.

This informative session served as a testament to AIMS' commitment to promoting health awareness and education among its students. By collaborating with esteemed institutions like The Diabetes Center, AIMS aims to empower its students with knowledge and skills essential for leading healthy, well-balanced lives.
